## **EXAMPLE ASSIGNMENT:** Team Report and/or Presentation

- <u>STUDENT OBJECTIVE</u>: Assess what you have learned by answering the following questions:
  - What was your firm's strategy, decisions and performance in the game? How well did you do?
  - What accounts for your success and problems in the game? Explain any significant analysis that you have done.
  - How would you improve your performance in the game? What economic theories and analysis could be applied to make better business decisions? Give examples to explain your recommendations.
  - Conclude with the key learning lessons from your game experience.
- BENEFIT: Students reinforce their learning by reviewing and evaluating their experience in the simulation and sharing it with others.
